## Steps You Can Take to Further Protect Your Information

- **Review Your Account Statements and Notify Law Enforcement of Suspicious Activity**

As a precautionary measure, we recommend that you remain vigilant by reviewing your account statements and credit reports closely. If you detect any suspicious activity on an account, you should promptly notify the financial institution or company with which the account is maintained. You also should promptly report any fraudulent activity or any suspected incidence of identity theft to proper law enforcement authorities, including your state attorney general and the Federal Trade Commission (FTC).

To file a complaint with the FTC, go to [IdentityTheft.gov](http://IdentityTheft.gov) or call 1-877-ID-THEFT (877-438-4338). Complaints filed with the FTC will be added to the FTC's Identity Theft Data Clearinghouse, which is a database made available to law enforcement agencies.

- **Consider Placing a Fraud Alert on Your Credit Report**

You may want to consider placing a fraud alert on your credit report. An initial fraud alert is free and will stay on your credit file for at least 90 days. The alert informs creditors of possible fraudulent activity within your report and requests that the creditor contact you prior to

establishing any accounts in your name. To place a fraud alert on your credit report, contact any of the three credit reporting agencies identified above. Additional information is available at <http://www.annualcreditreport.com>.

- **Take Advantage of Additional Free Resources on Identity Theft**

### **OTHER IMPORTANT INFORMATION**

- **Security Freeze**

In some US states, you have the right to put a security freeze on your credit file. A security freeze (also known as a credit freeze) makes it harder for someone to open a new account in your name. It is designed to prevent potential creditors from accessing your credit report without your consent. As a result, using a security freeze may interfere with or delay your ability to apply for a new credit card, wireless phone, or any service that requires a credit check. You must separately place a security freeze on your credit file with each credit reporting agency. To place a security freeze, you may be required to provide the consumer reporting agency with information that identifies you including your full name, Social Security number, date of birth, current and previous addresses, a copy of your state-issued identification card, and a recent utility bill, bank statement, or insurance statement. There is no charge to request a security freeze or to remove a security freeze.
